MITOTECH®
CELL BOOSTER

MITODERM

Advanced skin to cell delivery technology

- **MITOTECH Concentrated Powder (Freeze-Dried) 154 mg × 4**
- **MITOTECH Boosting Ampoule 15 mL × 4**

MITOTECH® CELL BOOSTER Lifting Kit provides strong and efficient anti-aging derma care for skin rejuvenation.

This product consists of two separate formulas. The first is a freeze-dried powder concentrated with hyaluronic acid, collagen and peptides for best efficacy. The second is a boosting ampoule that activates the freeze-dried powder and makes it suitable for application to the skin.

No benefits can be gained from derma-active ingredients in cosmetics if they do not pass through the skin barrier. You will experience miraculous skin improvement with innovative MITOTECH® CELL BOOSTER technology.

HOW TO USE	Add 1 bottle of boosting ampoule (15 mL) slowly to the concentrated freeze-dried powder. Do not shake. Allow the freeze-dried powder to dissolve slowly and activate for at least 1 hour. Once dissolved, shake to mix and apply an appropriate amount to the skin. Recommended use: 0.5 mL twice a day or 1 mL per day. Please refer to the detailed user guide enclosed in the box.
INGREDIENTS	**MITOTECH® CELL BOOSTER Concentrated Powder (Freeze-Dried)** Sodium Hyaluronate, Hydrolyzed Collagen, Oligopeptide-191, Hexapeptide-61 Dimer **Boosting Ampoule** Water, Dipropylene Glycol, Niacinamide, Butylene Glycol, Alcohol Denat. 1,2-Hexanediol, Hydroxyacetophenone, Glycerin, Octyldodeceth-16, Hydroxyethyl Urea, Diethoxyethyl Succinate, Disodium EDTA, Adenosine, Fragrance, Octyldodecanol, Glyceryl Acrylate/Acrylic Acid Copolymer, Hydrogenated Lecithin, Ceramide NP, Caprylyl Glycol, Tetramethyl Acetyloctahydronaphthalenes
